

Student Testimonial

Drew China

General English

Malvern House Brighton

Why did you choose to study here?

I want to improve my English and exchange my ideas with people of different nationalities. In the future, I might pursue my master's degree here in the UK.

What courses are available in the school?

They have many options of different courses. For example, General English, Business English and IELTS courses.

Do you like living in Brighton?

I really love this city, I like how it's by the sea. The weather is so nice here. Malvern House is situated in central Brighton and it's just a 3-5 minute's walk from the sea; that's why I chose this school.

What's your favourite part of your course?

I like learning Business English, as I'm also working at the same time in China. I learn new vocabulary and about new topics every day, so it's really interesting.

Have you made friends here?

I've made lots of friends here from places like Brazil, Spain, Saudi Arabia, and Czech Republic. I have good friendships with them, and my teachers too, they're perfect - I really love them.
